CMS Rule: COVID-19 Vaccine Requirements

The Centers for Medicare & Medicaid Services (CMS) issued a rule on May 11, 2021 that revises the infection control requirements that long-term care facilities must follow in an effort to reduce SARS-CoV-2 infections. The rule requires long-term care facilities to educate and offer the COVID-19 vaccine to residents, clients, and staff. It further requires long-term care facilities to report COVID-19 vaccination status of residents and staff to the CDC.

For additional details on the Rule, visit [here](#).

For COVID-19 Vaccine Immunization Requirements for Residents and Staff visit [here](#).
